Seasonal variations of sulfur aerosols at Zhongshan Station, East Antarctica .......................................................... 189  
ZHANG Miming, CHEN Liqi, LIN Qi & WANG Yanmin

Seasonal variations in aerosol compositions at Great Wall Station in Antarctica ...................................................... 196  
ZHANG Yuanhui, WANG Yanmin, ZHANG Miming, CHEN Liqi, LIN Qi, YAN Jinpei, LI Wei, LIN Hongmei & ZHAO Shuhui

Characteristics of trace metals in marine aerosols and their source identification over the Southern Ocean ........... 203  
ZHAO Shuhui, CHEN Liqi & LIN Hongmei

Iodine speciation in aerosol particle samples collected over the sea between offshore China and the Arctic Ocean ......................................................................................................................................................... 215  
KANG Hui, XU Siqi, YU Xiawei, LI Bing, LIU Wei, YANG Hongxia & XIE Zhouqing

Methanesulphonic acid in aerosols along a cruise path from China to the Arctic Ocean: Spatial and temporal distributions and link with iodine ......................................................................................................................... 222  
LIU Haoran, XIE Zhouqing, YE Peipei, KANG Hui & XU Siqi

Phosphorus in the aerosols over oceans transported offshore from China to the Arctic Ocean: Speciation, spatial distribution, and potential sources ........................................................................................................ 232  
SUN Chen, XIE Zhouqing, KANG Hui & YU Juan

Atmospheric polychlorinated biphenyls measured during the 2008 Chinese National Arctic Research Expedition .................................................................................................................................................... 239  
WU Xiaoguo, James C W Lam, XIA Chonghuan, KANG Hui, XIE Zhouqing & Paul K S Lam

Variation characteristics of carbon monoxide and ozone over the course of the 2014 Chinese National Arctic Research Expedition ........................................................................................................................................ 249  
LI Bokun, BIAN Lingen, ZHENG Xiangdong, DING Minghu & XIE Zhouqing

Observations of stratospheric ozone above Ny-Ålesund in the Arctic, 2010–2011 ...................................................... 256  
LUO Yuhan, SI Fuqi, LIU Wenqing, SUN Liguang & LIU Yi
