

Advances in Polar Science

Contents

Vol.26 No.1 March 2015

Foreword

Articles

- Assessment of trace metals in droppings of Adélie penguins (*Pygoscelis adeliae*) from different locations of the Antarctic Peninsula area 1
José E. Celis, Winfred Espejo, Ricardo Barra, Danie Gonzalez-Acuña, Francisca Gonzalez & Solange Jara
- Geographic ranges of ascidians from Antarctica and the southeastern Pacific 8
Dirk Schories, Karen Sanamyan, Nadja Sanamyan, María José Díaz, Ignacio Garrido, Thomas Heran, Jorge Holtheuer & Gesche Kohlberg
- Experimental culture of non-indigenous *Juncus bufonius* from King George Island, South Shetland Island, Antarctica 24
Marely Cuba-Díaz, Eduardo Fuentes, Mauricio Rondanelli-Reyes & Ángela Machuca
- Detection of integron integrase genes on King George Island, Antarctica 30
Verónica Antelo, Héctor Romero & Silvia Batista
- Distribution patterns of typical enzyme activities in tundra soils on the Fildes Peninsula of maritime Antarctica 38
DING Wei, WANG Qing, ZHU Renbin & MA Dawei
- Analysis of phosphorus forms in sediment cores from ephemeral ponds on Ardley Island, West Antarctica 47
YANG Lianjiao, QIN Xianyan, SUN Liguang, HUANG Tao & WANG Yuhong
- Sources and distribution of particulate organic carbon in Great Wall Cove and Ardley Cove, King George Island, West Antarctica 55
TIAN Shichao, JIN Haiyan, GAO Shengquan, ZHUANG Yanpei, ZHANG Yang, WANG Bin & CHEN Jianfang
- Seawater nutrient and chlorophyll α distributions near the Great Wall Station, Antarctica 63
GAO Shengquan, JIN Haiyan, ZHUANG Yanpei, JI Zhongqiang, TIAN Shichao, ZHANG Jingjing & CHEN Jianfang
- Identification of Antarctic culturable bacteria able to produce diverse enzymes of potential biotechnological interest 71
Ignacio Ferrés, Vanesa Amarelle, Francisco Noya & Elena Fabiano
- Preliminary evidence for 17 coastal terraces on Fildes Peninsula, King George Island, Antarctica 80
CHU Zhuding, YIN Xuebin, SUN Liguang & WANG Yuhong

Characterizing proteases in an Antarctic <i>Janthinobacterium</i> sp. isolate: Evidence of a protease horizontal gene transfer event	88
Cecilia Martínez-Rosales, Juan José Marizcurrena, Andrés Iriarte, Natalia Fullana, Héctor Musto & Susana Castro-Sowinski	
Construction and screening of a functional metagenomic library to identify novel enzymes produced by Antarctic bacteria	96
Ignacio Ferrés, Vanesa Amarelle, Francisco Noya & Elena Fabiano	

Letters

Five-year bio-monitoring of aquatic ecosystems near Artigas Antarctic Scientific Base, King George Island ..	102
María A. Morel, Victoria Braña, Cecilia Martínez-Rosales, Cécica Cagide & Susana Castro-Sowinski	
A preliminary study of freshwater meiofaunal communities at Greenwich Island, South Shetland Islands, Antarctica	107
Soraya J. Silva, Minerva Cordovés, Nory González & Leinny González
