Foreword

Reviews

Thematic papers on “A Decade of Scientific Research at Dome A, Antarctica”

- Science and exploration in the high interior of East Antarctica in the twentieth century 65
Irina Gan, David Drewry, Ian Allison & Vladimir Kotlyakov
- A frozen collision belt beneath ice: an overview of seismic studies around the Gamburtsev Subglacial Mountains, East Antarctica 78
AN Meijian, Douglas A. Wiens & ZHAO Yue
- Climate and meteorological processes of the East Antarctic ice sheet between Zhongshan and Dome-A 90
BIAN Lingen, Ian Allison, XIAO Cunde, MA Yongfeng, FU Liang & DING Minghu
- A Chinese Antarctic Magnetometer Chain at the Cusp Latitude 102
LIU Yonghua, HU Hongqiao, YANG Huigen, ZHANG Beichen, SUN Bo, WEI Fuhai, LIU Yang, LIU Jianjun, WANG Rui, CHEN Zhuotian, HU Zejun, HAN Desheng, SHI Guitao, HU Zhengyi, WANG Tao, AN Chunlei & Mike Rose

Articles

- PIV experimental study on the interactions between ice ridges and stratified fluids 107
TIE Wen, LU Peng, LI Zhijun, LI Bo & WU Yan
- Considerable increase in bowhead, blue, humpback and fin whales numbers in the Greenland Sea and Fram Strait between 1979 and 2014 117
Claude R. Joiris
- Some aspects of Chinese-Australian cooperation in Antarctic Research over the past forty years 126
ZHAO Chen & Ian Allison
